

Focus on three thumbnail sketches

Below are three thumbnail ideas that I consider the best options.

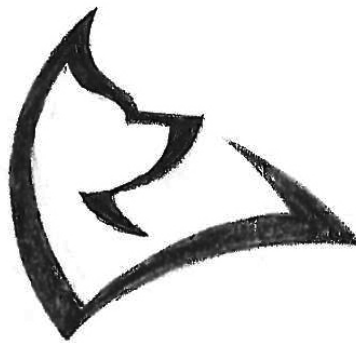

①

Sketch 1

Sketch 1 is an outline sketch with an incomplete circle border. It is simple and easily recognizable.

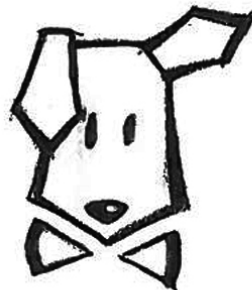

②

Sketch 2

This is an abstract outline of a German Shepard dog with pointy ends like it is made out of a single thread of ribbon. I like the strong lines that are not broken up like the first sketch. It will be easy to brand on object. E.g. Monogram on caps and t-shirts.

③

Sketch

This sketch has a cartoonish look to it. I figured it catchier than the previous two sketches and thus will be easily remembered or identifiable.
